

About Us

Cornerstone provides care and support for adults, young people and children across Scotland. We support people with learning disabilities, physical disabilities, children and families who need respite and support to access mainstream activities, older people, people with dementia, people with mental health problems and others who may need our support.

We can assist adults with a disability into employment, we provide Shared Lives and we have a fostering and short breaks service. If you are looking for advice and support to employ your own personal assistant we have a Self-Directed Support (SDS) service that currently supports over 400 people and families.
